Dear Boer Jan, H.,

I am writing in respect of your writings on Christian, Muslims: Parameters for living together, contribution to the healing of Nigeria's religious relationships.

Your writings are immense in volumes and copies have been sold all over, your contribution to the healing of Nigeria religious relationships were not meticulous. There are many issues that could not be substantiated and not based on statistical research and therefore has mislead your readers and the Nigeria society to believe those positions (your stands) which you have no data and statistics to back them up. The issue of greatest concern is your inference on the Nigeria population of Christians and Muslims. You kept on saying that the Nigeria Christian Population verses Muslims population is 50, - 50 each, that was not based on statistical data. You do not have any statistical data to show that the Muslims population in Nigeria is 50% of the Nigeria population Visa Vis Christian population. You did not conduct any research on the Nigerian population. The 50% each is a political propaganda of the Nigeria rulers based on Political answers. I thought that you as a writer will base your writings on facts and substantiated positions, but it was not, this way you mislead your readers and the Nigerian society to believing your writings, which has no statistical bases, and created more concerns for the Christians in Nigeria than resolving the issues of Christians – Muslims population in Nigeria. It is your writings and others like you that mislead the world in believing that the Nigerian Muslims is 50% of the Nigerian population which is misleading grossly.

It is because of these issues that a Bible Research Center is established to ascertain correct positions. I don't know how you intend to correct the impression you already created to your readers and the general society. You can get back to us at the center for corrective measure you desire to take, so that we can work together to ascertain facts especially for publications and general societal use or consumption. Let us work together for the benefit of the faith.

Thank you for anticipated co-operation in such matters.

Yours Sincerely,

Lamido R. Nawa
